

Basic Course:

The system initializes the Sudoku gameplay page with a Sudoku table and a timer. Player enters their solution and clicks submit answer. The system checks if the submitted board is correct. The system saves the score and displays the Sudoku page with the final score.

Alternate Course (the board was incorrect):

The system displays the Sudoku gameplay page with the message "incorrect solution".

Alternate Course (the player is logged out):

The system does not save the player's score.
